

JUAN CARLOS MACIAS

QA ANALYST · MANUAL & AUTOMATED TESTING

PROFESSIONAL SUMMARY

QA Analyst with experience in manual and automated testing, currently at Gencise.ai while pursuing a B.S. in Software Development Engineering. Expanded automated test coverage to 6 products, built test reporting tools, and work with CI/CD pipelines on AWS and Kubernetes, while also fixing frontend and backend bugs. Strong foundation in Python, JavaScript, React, and SQL.

WORK EXPERIENCE

Gencise.ai | QA Analyst

May 2026 – Present

162 PRs merged · 107 PRs reviewed · 60 test cases in Xray · 6 products with automated tests

QA AUTOMATION

- Built from scratch the team's centralized test report with Allure on AWS, with custom plugins: run history, product overview, production report, and per-test results with screenshots.
- Expanded automated test coverage to 6 products with Playwright and behave, including regression suites.
- Brought smoke tests to production and demo, running automatically on every deployment.
- Reduced nightly test run time from ~119 to ~76 minutes (~36% faster).
- Improved CI pipeline reliability on Kubernetes with infrastructure retries, quarantine of known failures, and result publishing even when runs are interrupted.
- Automated Xray result publishing and Slack alerts that distinguish new failures from recurring ones.
- Designed test classification by tags (8 suites) and a status system for known failures.

MANUAL QA & CODE REVIEW

- Reviewed 107 pull requests, including those from new team members, catching false-positive tests.
- Designed 60 test cases in Xray, reported bugs, and verified tickets in UAT.

DEVELOPMENT

- Built a production dashboard in the application, consuming data from REST API services on the frontend.
- Fixed frontend and backend bugs across the team's applications, such as table sorting with empty values.
- Implemented automatic retries and Slack alerts in a critical workflow, coordinating changes across 5 repositories.

MBQ Group | QA Intern

Internship

- Executed manual software tests following internal QA procedures and documented the results.
- Reported issues to the team and organized project documentation in Google Drive.

Ecommerce Assistant

2025

- Analyzed sales across digital platforms and prepared reports to support decision-making.
- Coordinated shipping and returns logistics, and handled customer inquiries.

Boost Auto | Ecommerce Executive

2024

- Managed sales operations on Mercado Libre, including product listings and order tracking.
- Analyzed monthly performance metrics, maintained inventory control, and provided post-sales follow-up.

Syl 13 Seguridad Privada | Operations

- Coordinated staff coverage across assigned zones, along with payroll and operational logistics.
- Led recruitment and training processes for new staff.

TECHNICAL SKILLS

- **Testing & QA:** Playwright, behave (BDD / Gherkin), Allure, Xray (Jira), smoke, regression, UAT, code review.
- **CI/CD & Cloud:** GitHub Actions, Docker, Kubernetes (EKS), Helm, AWS S3.
- **Languages:** Python, JavaScript, SQL, C++.
- **Web & Tools:** React, REST APIs, HTML, CSS, Node.js, Git, GitHub, Jira, Slack, Linux, VS Code.

EDUCATION

- B.S. in Software Development Engineering, online program (in progress).
- Undergraduate studies in Cybersecurity (incomplete).
